Water Survival Skills - Test Protocol

The following criteria must be fulfilled to submit valid data:

- XX (Full name, email address) is **test leader**.
- XX to YY people are selected at random and who have **not** previously received swimming lessons - with 50/50 percent girls and boys.
- The age group is 9-10 years.
- Test period 1 is conducted approximately 6 months before test period 2.
- The test person accepts that they will not receive swimming lessons or practise swimming until test period 2.
- The test in **period 1**, is on the **last day**.
- The test in **period 2**, is on the **first day**.
- The tests are pairwise** - i.e. a test person tested in period they are the exact same people which is tested in period 2. In this way data can be compared over time. Thus, person A remains person A and person B remains person B etc.
- Anonymized data is submitted through:
<https://form.q2m2.com/int-water-survival-skills-test/>.
- Before starting the test and submitting data, please advise us by email:
contact@q2m2.com or tel: 0045 2275 6975.

Best regards

John Mogensen, Dominic Roberton, and Ivan T. Herrmann
